

$$(1) 18 - 54 \div (18 \times 3) + 19 =$$

$$(2) 5 + 20 \div 2 \times (5 - 4) =$$

$$(3) 8 \times 7 - 28 \div (14 + 14) =$$

$$(4) 65 \div 13 + (8 - 4) \times 7 =$$

$$(5) 6 \times 2 + 16 \div (16 - 15) =$$

()がある計算のプリント(20)

$$\begin{aligned}(1) 18 - 54 \div (18 \times 3) + 19 &= 18 - 54 \div 54 + 19 \\ &= 18 - 1 + 19 \\ &= 17 + 19 \\ &= 36\end{aligned}$$

$$\begin{aligned}(2) 5 + 20 \div 2 \times (5 - 4) &= 5 + 10 \times 1 \\ &= 5 + 10 \\ &= 15\end{aligned}$$

$$\begin{aligned}(3) 8 \times 7 - 28 \div (14 + 14) &= 56 - 28 \div 28 \\ &= 56 - 1 \\ &= 55\end{aligned}$$

$$\begin{aligned}(4) 65 \div 13 + (8 - 4) \times 7 &= 5 + 4 \times 7 \\ &= 5 + 28 \\ &= 33\end{aligned}$$

$$\begin{aligned}(5) 6 \times 2 + 16 \div (16 - 15) &= 12 + 16 \div 1 \\ &= 12 + 16 \\ &= 28\end{aligned}$$
