

$$(1) 3 \div 3 \times (20 - 17) + 6 =$$

$$(2) 6 \times 13 - 30 \div (6 + 4) =$$

$$(3) (14 - 7) \div 7 + 5 \times 8 =$$

$$(4) 48 \div (12 \times 2) + 8 - 4 =$$

$$(5) 3 \times 2 - 52 \div (13 + 13) =$$

()がある計算のプリント(22)

$$\begin{aligned}(1) 3 \div 3 \times (20 - 17) + 6 &= 1 \times 3 + 6 \\ &= 3 + 6 \\ &= 9\end{aligned}$$

$$\begin{aligned}(2) 6 \times 13 - 30 \div (6 + 4) &= 78 - 30 \div 10 \\ &= 78 - 3 \\ &= 75\end{aligned}$$

$$\begin{aligned}(3) (14 - 7) \div 7 + 5 \times 8 &= 7 \div 7 + 40 \\ &= 1 + 40 \\ &= 41\end{aligned}$$

$$\begin{aligned}(4) 48 \div (12 \times 2) + 8 - 4 &= 48 \div 24 + 8 - 4 \\ &= 2 + 8 - 4 \\ &= 10 - 4 \\ &= 6\end{aligned}$$

$$\begin{aligned}(5) 3 \times 2 - 52 \div (13 + 13) &= 6 - 52 \div 26 \\ &= 6 - 2 \\ &= 4\end{aligned}$$
